# MAŁGORZATA (GOSIA) CURYŁO

Melbourne, Victoria, Australia
gosia.curylo@monash.edu ⋄ https://gcurylo.github.io/

## RESEARCH INTERESTS

Pulsar timing, radio astronomy, gravitational waves, massive black holes, multi-messenger astrophysics

## EXPERIENCE

**OzGrav Research Fellow** July 2024 - Present
Monash University

## EDUCATION

**University of Warsaw, Poland** April 2024
PhD in astrophysics

**Jagiellonian University, Krakow, Poland** September 2017
Master degree in astronomy

**Jagiellonian University, Krakow, Poland** September 2016
Bachelor degree in astronomy

## GRANTS AND AWARDS

**Cross-Nodal Collaboration recognition** 2025
OzGrav retreat 2025

**PRELUDIUM grant of the Polish National Science Center** 2022 - 2024
PI of the project: Formation and evolution of massive black holes

**Teaching Award** 2021
Faculty of Physics, University of Warsaw, Poland

**Best poster award** 2020
First Virtual Scientific Conference of Campus Ochota, Poland

**Best talk award** 2019
Astronomy student conference KSAKN, Poznan, Poland

## STUDENT SUPERVISION AND TEACHING

**Monash University, Australia** 2025 - Present
Supervision of 3 students (international summer student, Monash undergraduate and honours students)

**University of Warsaw, Poland** 2019-2023
4 years of teaching general and spherical astronomy and general astrophysics.

## LEADERSHIP AND SERVICE

**Journal referee**
ApJ, PRD, MNRAS

**Observing proposal reviewer**
The Five-hundred-meter Aperture Spherical Telescope (FAST)

**Steering committee member**
Parkes Pulsar Timing Array 2025 - Present
International Pulsar Timing Array 2025

**Parkes Pulsar Timing Array collaboration** 2019 - Present
Observations, data analysis, methods and software development

**MeerKAT Pulsar Timing Array collaboration** 2024 - Present
Data analysis, methods and software development

**Organisation of seminars, conferences and workshops**
Monash University astroseminar series (present)
International Pulsar Timing Array Student week SOC (2021)
LVK meeting LOC (2019)

## PUBLICATIONS

Significant contribution to 12 papers, out of which 5 are first author (excluding large collaboration papers). Full list of papers is available on Dr Curyło's website as an ADS link.

## SELECTED CONFERENCES

Total number of conference/seminar talks: 31.

**Invited talks**
London-Oldenburg Relativity Seminar, Swinburne University of Technology, University of Melbourne, Particle Astrophysics in Poland, International Pulsar Timing Array Student Workshop, University of Warsaw, Second Edition of the Virtual Scientific Conference of the Ochota Campus, Polish Astronomical Society Meeting, Nicolaus Copernicus Astronomical Center Poland

**Selected contributed talks**
Pulsar25 (Italy 2025), Amaldi16 (Scotland 2025, online 2021), Fourth European Physical Society Conference on Gravitation: Black Holes (Spain 2023), European Astronomical Society Annual Meeting (Poland 2023, online 2021), Gravitational Wave Physics and Astronomy Workshop GWPAW (Australia, 2022), 56th Rencontres de Moriond (Italy, 2022), International Pulsar Timing Array Science meetings
